

WEEK FIVE

How many of these activities can you complete each day? Color each box that you complete! Challenge your child to work as independently as they can on these, but please also assist them when needed too. :)

MONDAY

Write the words to practice on pieces of paper and then ask a family member to cut each word into pieces. Can you put the words back together?

Read 2 books with a family member. If you could change the ending of each book, what would you change it to?

Draw a picture to show what the answer to 3+1 is. What is the answer? Write the numbers to practice that many times in different colors.

Find all the things in your home that are green and yellow. Draw and label them on a piece of paper.

Take a bubble bath or shower. Are there any toys that could use a bath or shower toy? Clean them in the bath or shower.

Rain or shine: Go on a nature walk. Collect some things from outside. Using glue and any other art items you can find, create your name with these items.

TUESDAY

Make each word to practice out of play-doh, string, beads, or pieces of food.

Read a book with a family member. Where did the book take place? This is called the setting. Draw the setting on a piece of paper. What things can you label in your picture?

Pick one of the numbers to practice and spin around that many times. Next, gallop that many times too.

Which number to practice is the smallest? Draw that many mountains and label them with numbers.

Help cook something with your family.

Think of 3 ways you can be kind to your family this week. Draw a picture of the kind things you plan to do and circle each picture after you do it.

WEDNESDAY

Read 2 books with a family member. Talk about your favorite characters. Why are they your favorite?

Create some SILLY sentences using the words to practice. Draw pictures to match each sentence.

Draw a picture to show what the answer to 9-2 is. What is the answer? Write the numbers to practice that many times in different colors.

Make each number to practice out of play-doh, string, beads, or pieces of food.

Look up a simple science experiment on Pinterest, the internet, or make up your own idea. Ask a family member for assistance in doing it.

Help your family with a chore. What new chores can you learn to do?

THURSDAY

Using shaving cream, markers, paint, or something else creative, write the words to practice.

Read a book with animal characters with your family.

Write the numbers to practice on little pieces of paper and hide them around your home. Ask a family member to call out a number for you to go and find.

Pick one of the numbers to practice and hold a plank for that many seconds. Next, do that many shoulder shrugs too.

Play hide-and-seek or go outside and play tag with your family.

Watch something about science on YouTube or on television.

FRIDAY

Make a fort and read 2 books with a family member.

Write the words to practice on little pieces of paper and hide them around your home. Ask a family member to call out a word for you to go and find.

Write numbers from 1-35. Color the all the numbers with 2, 4, 6, or 0 in them.

Eat a snack with pieces. How many pieces are in your snack? Can you make a number 1, 2, and 3 with these pieces?

Complete a puzzle or play a game with your family.

Imagine you opened your own amusement park. What kinds of rides would you have? Draw a picture to share with your family.
